

LED Site Lighting

With the dark night's drawing in and the ever increasing demands on optimizing time on site Jack Pennington Ltd offer a new and innovative range of LED site lighting to ensure down time is reduced and site safety is maintained.

The range consists of low energy, high light output LED site lights and a new IP44 rated LED Festoon for use in all site environments. The rechargeable LED hand lamp provides a quick and flexible solution for lighting those awkward areas with up to 6 hours battery life on one charge and the LED Multi Light features a high performance 64 LED multi position lighting head, height adjustment between 1.5 to 2.5M and a detachable 'twist 'n' lock' base for flexibility on site.

Our new range of LED lighting offer energy saving solutions and the technology and design combine to give robust hard wearing products that are high performance and environmentally friendly, enabling safe working within the harshest of site environments.

If you require any more information regarding this innovative range of site lighting products please do not hesitate in contacting your Local Area Representative or alternatively contact our Customer Service Team who will be more than happy to offer you the information you need.

Key Product Features:

- High Output
- Low Energy
- Impact and Scratch Resistant
- IP44 Rated
- Environmentally Friendly
