

Bosch Workwear

Bosch has long been associated with producing quality products, which is reflected in their new range of workwear recently introduced into Jack Pennington's portfolio of products.

The range consists of everyday workwear, waterproof jackets and trousers. The waterproof trouser and jacket are windproof and breathable with added features such as: secure pockets, reflective piping and are fully adjustable; everything you need to cope with the seasonal weather. The work trousers are 65% Polyester and 35% cotton, and come with triple stitched seams, guaranteed zips and even kneepad pockets. The fleece jacket is windproof and breathable and comes with waterproof nylon over the shoulders to increase water resistance. It also has secure mobile phone pockets, waterproof zips and reflective strips to ensure your safety while working on site.

We also stock Bosch accessories including a mobile phone holder and knee pads that fit perfectly with the trousers.

At Jack Pennington Ltd we are renowned for the quality of our products and this range of Bosch Workwear compliments our existing products perfectly. The products offer superb value for the customer, due to the hardwearing nature of the clothing and although they are associated with site work are comfortable and even stylish to wear.
